

## Parent Survey Feedback – July 2015

Don't know
  Yes
  No

In summary: 58 questionnaires were received.

All parents replied that they feel welcome, are well informed about their child's progress and can access advice.

The vast overwhelming majority of parents say that meetings including Annual reviews are well run; the school respond well to issues and concerns; know that their child is achieving well and feel their child is safe and happy at school.

One family felt that they had not been well supported to help their child with learning at home. The same family felt they had not received sufficient information regarding their child's progress. Manor School have worked closely with this family to ensure that communication between home and school meets the needs of the family so that the partnership between learning at home and learning at school can be strengthened.
